EDUCATION

Bachelor of Science in Computer Science & Applied Mathematics May 2025
St. Cloud State University (SCSU), St. Cloud, MN

- Program nationally accredited by the Engineering Accreditation Commission of ABET
- Dean's List; three consecutive semesters

RELEVANT EXPERIENCE

Data Analyst Intern, SCSU Survey Research Center February 2024 –Present

- Conduct and Analyze State-Wide Surveys on Social-Science using various statistical methods

IT Specialist, Husky Tech, St. Cloud State University October 2021 –Present

- Protect customer data from outside infiltration through encryption
- Collaborate with managers in the IT department to decide maintenance and growth of a network
- Develop and innovate network troubleshooting methods to reduce downtime

Web Developer Intern, Nepalese Association, Saint Cloud, MN January 2022 – May 2023

- Developed and supported web services and interfaces for the Nepalese association
- Contributed to the front end and back-end development process
- Collaborated with other organizations on various projects and sprints

TECHNICAL SKILLS

- **Programming Languages:** C#, .NET, C++, Python, HTML, R, Rust, ML, JavaScript, Assembly
- **Operating Systems:** LINUX, UNIX, Mac OSX, Windows
- **Software:** TensorFlow, Py Torch, React, Node, Microsoft Azure ML, AWS, Git/GitHub, Power BI

ADDITIONAL EMPLOYMENT

Resident Assistant, St. Cloud State University, St. Cloud, MN August 2023 – Present

- Work towards community development by organizing programs to meet the needs of resident·
- Connect residents to other campus activities and create an inclusive environment for the residents

Vice President, Computer Science Club, St. Cloud, MN May 2022 – Present

- Participate in hackathon sponsored by Aspen Technology, OSI and other tech companies
- Collaborate with computer science club in a global game jam and compete with other universities

INVOLVEMENT

Member, SCSU Student Government, SCSU September 2021 – May 2022

PROJECTS

- Analyzed and interpreted data from the national park service on the status of endangered species using python, R and Statistics to better understand the status of various species in a national park
- Used Git to implement the idea of data structures and algorithms in C++ to create a recommendation system
- Analyzed NFL stats using Python, AI, Machine Learning and Logistic Regression techniques
- Used a convolutional neural network to classify galaxies using Python and Tensor Flow
- Demonstrated the usage of an open source GLTF to 3D Tiles tool and visualize the result in Deck.GL with a Tile3DLayer
